

## Press Release

### Naber shows kitchen accessories at the "esprit Meuble" in Paris

In order to further expand its market presence in France, the kitchen accessories specialist Naber took part in the "esprit Meuble" in Paris in mid-November 2022. The international furniture fair integrates the "esprit Cuisine", a showcase for kitchen professionals – an ideal trade fair format for the innovative German family business. The organiser estimated the number of trade visitors on the four days of the fair at more than 12,200.

Through the contacts with kitchen retailers, the Naber team learned a great deal about the current preferences of French consumers when it comes to equipping convenient kitchens. Feeling the pulse in Paris also extended to discussions with experts from European countries such as Belgium, Spain and the Netherlands. The trade visitors to the Naber stand were especially interested in the technical systems for creative lighting of living spaces and for kitchen ventilation, which were presented in France for the first time.

With high-performance air duct systems and airtight wall conduct solutions, Naber is a global leader in the area of kitchen ventilation technology. Also in low energy houses, cooking fumes can be routed very efficiently outdoors, so that the cooking takes place in healthy indoor air. Highly advanced wall conduct technologies also ensure a sufficient supply of fresh air.

#### Maximum efficiency: COMPAIR PRIME flow®

With further improved flow characteristics, the newly developed, particularly flexible air duct system COMPAIR PRIME flow® guarantees that the active extractor hood hardly makes a sound. Thanks to the innovative universal connectors, the components can be installed entirely without tools or aids.

The fitted sink, faucet and waste collector form the active centre of the kitchen, and daily tasks are simplified when these accessories are high-quality, durable and perfectly coordinated. The NABER TRIO offers exceptionally stylish combinations that impress with their quality, aesthetics and optimal organisation of storage space.

The international trade visitors at the "esprit Cuisine" in Paris were not only inspired by complex systems and expressive interiors, but also by the clever installation material. Naber provides ingenious solutions for the simple and quick installation of kitchen appliances in kitchen islands as well as for the uncomplicated connection of various appliances to the water or power supply.
